## EXPERIENCE

### Front-End developer (2021 - current)

IC Web Co., Ltd.

Collaborated closely with both UX and UI design teams to develop visually-driven websites that align with client requirements and brand identity. Primarily worked with the Digital Platform (DP) team of Kasikornbank and KBTG (Kasikorn Business-Technology Group) to maintain and enhance the Kasikornbank website.

Utilized HTML, CSS, and JavaScript as the main tools for website development, with additional experience working within the SharePoint environment. Possess a solid understanding of proper HTML structure and SEO (Search Engine Optimization) best practices, along with foundational knowledge of implementing tracking tools.
